

Free Safety

Every football team needs at least one. But did you know the ***Slipstick Horizontal Motion Conveyor*** gives you a double dose of safety. Your friable product is safe from the degradation caused by the vertical movement of typical vibratory conveyors. Your employees are safer because the ***Slipstick*** has no moving parts like belts, drags or screws.

Call **1.800.527-2116** today or visit **www.sssdynamics.com** to see how the Slipstick can safely simplify your operation and increase your profits.

***When safety matters,
the Slipstick is an all-pro***
